

Lost Crayons Answer Key

1. **B. She could not find her crayons.**

Teacher note: The missing crayons are the main problem Mia faces in the passage.

2. **C. Ben reminded her they were in his desk.**

Teacher note: This shows the clear solution—her friend helped her locate the crayons.

3. **Open-ended drawing.**

Teacher note: Look for students showing Mia with crayons and coloring to confirm comprehension of the resolved problem.

Teacher Guide:

This worksheet introduces students to the **problem & solution** structure in stories. Encourage them to ask: “*What went wrong?*” and “*How was it fixed?*” The drawing task reinforces understanding by letting students show the story’s happy ending in their own way.
