

Name _____

Discipline Sorter

Directions: Sort each word into the academic discipline where it most strongly belongs. Then justify your choices using short, evidence-based explanations.

homeostasis	inflation	photosynthesis	scarcity	osmosis	subsidy
catalyst	legislature	stoichiometry	jurisdiction	isotope	referendum
inertia	cognition	velocity	reinforcement	momentum	perception
derivative	metaphor	theorem	motif	algorithm	satire

Category notes (write your lists here):

- Biology: _____
- Chemistry: _____
- Physics: _____
- Mathematics: _____
- Economics: _____
- Government and Civics: _____
- Psychology: _____
- Literary Studies: _____

Build a Cross-Discipline Connection: Pick **two** words from **two different** disciplines. Write a 5-7 sentence paragraph that explains how the ideas could connect in a real academic situation. Include at least two academic connectors: **however, moreover, consequently, in contrast, specifically, nonetheless.**
