## Lost Book

**Directions:** Read the passage carefully. Find the **problem** the character faces. Find the **solution** and write it down in the chart.

Sophie loved going to the library every Saturday. She always borrowed a new book to read at home. One week, she realized she couldn't find the book she had borrowed. Sophie searched her backpack, under her bed, and even in the living room. Finally, she remembered that she had left the book at her grandma's house. The next day, Sophie picked it up from her grandma and returned it to the library.

Character	Problem	Solution
Sophie		

**Extension Question:** What could Sophie have done to **avoid losing her library book** in the first place?
