

Name _____

Vocabulary In Real Life Answer Key

1. F
2. E
3. A
4. B
5. C
6. G
7. D
8. H

Teacher's Guide

- Emphasize that vocabulary becomes stronger when students make **real-life connections** to their own experiences.
- Read the scenarios aloud and have students visualize each situation before matching it to a word.
- For differentiation, provide picture cues or allow students to sort physical cards labeled with words and scenarios.
- Encourage partner talk where students explain why each scenario fits the word they chose, building reasoning and oral language skills.
- Use an extension task where students create their own new scenario for one of the vocabulary words, then swap with a classmate for matching.
- For extra challenge, let advanced learners write a short paragraph using three matched words correctly.
