7. warn
8. launch

Teacher's Guide

- Preview the vocabulary words by briefly discussing prefixes, word origins, or familiar uses to activate background knowledge.
- Encourage students to underline key clues in each definition before searching the word bank for the best match.
- For differentiation, reduce the number of word choices or provide example sentences for students who need additional support.
- Have students work in pairs to justify their answers, promoting oral vocabulary reasoning and collaborative thinking.
- As an engagement idea, let students create illustrated dictionary cards for two of the words.
- For extension, challenge students to write original sentences using at least three matched words, showing they understand the meanings in context.
