

Name _____

Science Fair Sequence Answer Key

Correct Sequence:

1. Maya was excited about her science fair project.
2. Maya set up her volcano at the fair, but it didn't work.
3. Maya discovered she had used salt instead of baking soda.
4. Maya borrowed baking soda from a friend.
5. Maya's volcano erupted with red foam and impressed the judges.

Teacher Guide:

- This activity builds students' ability to recognize **chronological order** and follow a storyline.
- Point out that transition words like *after*, *when*, *this time*, and *quickly* give clues about sequence.
- Extension idea: Have students write a short paragraph about a time when a mistake turned into a success, using clear sequence words.
