

Name _____

Concept Connections Answer Key

1. justification
2. consequence
3. contrast
4. perspective
5. sequence
6. emphasis
7. principle
8. assumption
9. significance
10. inference

Explain One Relationship: Answers will vary. Student explanation must accurately describe the relationship between the paired abstract terms.

Teacher's Guide

- Using this worksheet
 - Review each word in the bank before students begin to activate prior knowledge.
 - Encourage students to identify the relationship type first, such as cause and effect or function.
 - Remind students that abstract analogies rely on reasoning, not memorization.
- Differentiation
 - Support: Allow students to eliminate unlikely choices by checking parts of speech.
 - Support: Model one analogy aloud and explain the reasoning step by step.
 - Challenge: Ask students to write an original analogy using two different abstract terms.
 - Challenge: Have students explain why each incorrect option does not fit the relationship.
