

Name _____

Earth vs. Space Gravity

Instructions: In the chart below, list **two similarities** and **three differences** between gravity on Earth and gravity in space.

- For **similarities**, think about what is true in both places.
- For **differences**, focus on how gravity acts differently on Earth compared to in space (for example, in orbit or far from large objects).

Gravity on Earth	Similarities	Gravity in Space
1.	1.	1.
2.	2.	2.
3.	3.	3.
