- | | |
|------------------|-----------|
| 1. Mediterranean | 5. coast |
| 2. dry | 6. summer |
| 3. rain | 7. winter |
| 4. mild | |

Teacher's Guide

Purpose

- Support students in grades 5 to 7 as they explore key traits of Greece's climate.
- Strengthen understanding of weather patterns, seasonal differences, and climate vocabulary.

Instructional Tips

- Review the words in the word bank before students begin.
- Provide short examples of Mediterranean climates in other regions to build connections.
- Encourage students to read each sentence carefully and check that the chosen word makes sense in context.

Differentiation

- Offer a vocabulary card with simple definitions for students who need extra support.
- Allow students who need it to work with a partner for the first two items.
- Challenge advanced learners to write two original sentences using extra climate terms such as humidity or temperature.

Engagement Ideas

- Ask students to compare Greece's climate with their own local climate.
- Show photos of Greek landscapes to spark discussion about how climate affects daily life.
