Name _____

Paycheck Coverage Answer Key

1. $60.00
2. $90.00
3. $78.00
4. $90.00
5. $120.00
6. $112.50
7. $132.69
8. $182.50

Teacher's Guide

- Review the formula: annual employee premium ÷ number of pay periods = premium withheld per paycheck.
- For extra support, let students begin with problems that divide evenly before solving those involving cents.
- For differentiation, allow students to use calculators after setting up each division problem correctly.
- Increase engagement by having students compare the withholding amounts and identify the highest and lowest.
- As an extension, have students multiply a paycheck withholding by the number of pay periods to verify the annual premium.
