

Name _____

The Homonym Choice Answer Key

- | | |
|----------|----------|
| 1. gate | 6. air |
| 2. wait | 7. night |
| 3. nail | 8. knot |
| 4. scene | 9. roll |
| 5. whale | 10. wear |

Teacher's Guide

- **Skill Focus:** Builds vocabulary precision by using **context clues** to distinguish between **homonyms** and understand how sentence meaning changes based on word choice.
- **Differentiation Tips:**
 - For younger learners, read each sentence aloud and emphasize clue words.
 - For advanced learners, have them explain *which context clue* helped them choose the right word.
- **Engagement Idea:** Play a "Context Detective" game-students underline the clues in each sentence that helped them solve the word mystery.
- **Extension Activity:**
 - Have students create two new sentences of their own that use the same homonym pair in different ways.
 - Challenge older students to write a short story that includes at least five homonym pairs used correctly in context.
