Teacher's Guide

- **Differentiation Tips:**
 - For younger learners, model one example and brainstorm ideas together before independent writing.
 - Allow advanced learners to write mini-stories or dialogues using multiple homophone pairs.
- **Engagement Ideas:**
 - Host a "Homophone Sentence Showdown," where students share their funniest or most creative sentences aloud.
 - Turn pairs into flashcards-students pick a card and must build a sentence on the spot.
- **Extension Activity:** Have students illustrate one of their sentences to show the difference between the two meanings.
