## Prompt Smarter, Cite Better Answer Key

### Model Prompts

**Prompt 1:** "Summarize three recent peer-reviewed studies published in major environmental science journals that discuss the relationship between ocean temperature and coral bleaching. Include the publication names and years."

**Prompt 2:** "Explain how the U.S. Supreme Court has ruled on student free speech in the last decade, referencing at least two specific cases and their outcomes. Provide the case titles and decision years."

**Prompt 3:** "Describe how artificial intelligence is currently used in medical diagnostics, citing credible health organizations or academic research from 2020 onward, and clarify the kinds of data these studies rely on."
