Name _____

## Action For Justice

**Directions:** Write a persuasive essay encouraging your classmates to take one small, meaningful action that supports human rights in your community. Use strong reasons, clear examples, and emotional appeal to inspire others to act.

Human Rights Day reminds us that every person can make a difference. You don't need to be a world leader or celebrity to create change - small actions, like speaking up for fairness or helping someone feel included, can have a big impact.

In your essay, choose **one local issue** that connects to human rights (for example: bullying, gender equality, discrimination, poverty, access to education, or online respect). Explain **why it matters**, **what action** people your age can take, and **how it could improve your community.**

**Write your essay below (aim for 3-5 paragraphs):**
