## Hurricane Vocabulary Match Answer Key

1. Eye → **B** - Calm, low-pressure center of the storm.
2. Eyewall → **E** - Ring of strongest winds and rain.
3. Storm Surge → **D** - Dangerous ocean water rise pushed onto land.
4. Tropical Depression → **A** - Beginning stage of a hurricane.
5. Hurricane Watch → **C** - Hurricane possible in 48 hours.
6. Hurricane Warning → **F** - Hurricane expected in 36 hours.

### Challenge Question (Sample Answer):

The **storm surge** is the most dangerous because it can flood coastal areas, destroy homes, and cause drowning. While the eyewall is powerful, the storm surge often leads to the most deaths and damage.
