## Hurricane Preparedness Answer Key

### Correct Order:

1. Listen to weather forecasts and stay informed about storm alerts.
2. Make an emergency plan with your family.
3. Check your emergency kit and refill anything missing.
4. Gather supplies like food, water, batteries, and first aid.
5. Secure outdoor items and board up windows.
6. Evacuate if officials give the order, or move to a safe shelter.

### Challenge Question (Sample Answer):

It's important to prepare early because supplies may run out once a hurricane warning is issued. Preparing in advance gives families time to plan calmly, avoid crowds, and focus on staying safe. Last-minute decisions can lead to mistakes or dangerous delays.
