

## Text Structure Quiz Answer Key

### 1 - C (Cause/Effect)

- Signal phrase: "as a result" → bike lanes caused more biking.

### 2 - D (Compare/Contrast)

- Contrast words: "alike, but, narrower, wider."

### 3 - B (Chronological)

- Signal words: "first, next, finally" → sequence of events.

### 4 - A (Problem/Solution)

- Problem = leaking roof/books ruined. Solution = repairs & replacements.

### 5 - C (Description)

- Sensory details (dark, cold, creatures) with examples → descriptive text.

### Teacher Notes

- Multiple-choice format helps students practice **test-like skills** while reinforcing text structures.
- Point out how wrong answers are "distractors" that force careful reading.
- Challenge extension: Have students justify *why the other options don't fit*.
- Works well for **independent practice, small group quiz games, or bell-ringer assessments**.
