## Village Blueprint Answer Key

### Key Elements to Appear on Student Maps:

- **Center:** Fountain with pigeons and children playing
- **North:** Church with stained-glass windows, tall, casting shadows
- **East:** Row of bakeries, chimneys with smoke, scent of bread
- **West:** Market stalls with fruit and fabrics
- **South:** Cobbled path leading to the riverbank with boats
- **Additional Details:** Oak trees with elders on benches, lively atmosphere (music, voices)

### Teacher Notes:

- Accuracy is about **placement and labeling** of features (north, south, east, west), not drawing skill.
- Encourage students to use text clues about **directional words** ("north," "south," etc.) and sensory details (smell of bread, sound of voices).
- For the written explanation, look for connections between their map and the **specific lines from the passage**. Example: "I put the bakeries on the east side because the text says they were on the eastern side of the square."
