

Name _____

Greater Together Answer Key

1. =

2. =

3. >

4. <

5. =

6. <

7. <

8. =

9. >

10. <

11. =

12. >

Teacher's Guide

- Review how to convert improper fractions to mixed numbers before comparing.
- Encourage students to compare whole numbers first, then fractional parts if needed.
- Allow students to use fraction strips or number lines for additional support.
- Have students explain the reason for each comparison to a partner.
- Challenge early finishers to create four comparison problems for a classmate.
- Extend the activity by asking students to order all 24 values from least to greatest.
