Name _____

Tax Table Hunt Answer Key

1. $2,100
2. $2,450
3. $2,720
4. $2,295
5. $2,535
6. $2,160
7. $2,820
8. $2,370
9. $2,625
10. $2,225

Teacher's Guide

- Quick implementation: Model how to locate the range containing a taxable income, then read across to find the corresponding tax.
- Differentiation: Have students underline the lower and upper limits of each range before locating the income.
- Engagement: Turn the activity into a tax-office accuracy challenge. Students can compare answers with a partner after completing all 10 searches.
- Extension: Give students several incomes near the endpoints of the ranges, such as $22,499 and $22,500, and have them identify the correct tax amounts.
