Name _____

Paycheck Review Answer Key

1. $1,112.50
2. $1,302.40
3. $1,500.75
4. $1,751.00
5. $2,019.25
6. $2,386.23

Teacher's Guide

- Quick implementation: Review gross pay, withholding, and take-home pay. Remind students that only the listed income-tax withholding is deducted in this simplified activity.
- Differentiation: Let students first write the subtraction equation for each paycheck. Provide decimal-place guides for students who need support.
- Engagement: Have students act as payroll reviewers and verify a partner's take-home pay calculations.
- Extension: Ask students to find the total gross pay, total tax withheld, and total take-home pay for all six employees.
