

Name _____

Indian Ocean Reflections Answer Key

Responses will vary but should include:

1. A clear explanation of the chosen topic.
2. At least one accurate example related to the Indian Ocean.
3. Evidence or reasoning that shows how the issue affects people or environments.
4. A thoughtful suggestion, solution, or reflection.

Examples of acceptable ideas:

- Environmental concerns can harm coral reefs, reduce fish populations, and threaten coastal communities.
- Global trade in the Indian Ocean shapes economies, connects continents, and depends on stable shipping routes.
- Tectonic activity in the region can trigger tsunamis or earthquakes affecting countries like Indonesia or India.
- Climate changes such as warming waters or stronger monsoons influence agriculture, weather extremes, and coastal safety.

Teacher's Guide

- Suitable for analysis practice, critical thinking development, and end of unit reflection.
- Works well as a writing prompt, discussion starter, or assessment task.
- Encourage students to reference maps or class notes while writing.

Differentiation Tips

- Allow Grade 7 to 8 students to create a structured outline before writing.
- Offer sentence starters such as **One major impact is** or **This issue matters because** for students who need support.
- For advanced students, require multiple real world examples or data references.
