## Saving Seas From Waste Answer Key

### Sample Accurate Headlines:

- *Plastic Pollution Threatens Ocean Life*
- *Cutting Plastic Use Protects Oceans*
- *Fighting Plastic Waste in Our Seas*

### Why These Work:

- They are **short, clear, and focused** on the central idea.
- They highlight the **problem** (plastic in oceans) and/or the **solution** (reducing use, clean-up efforts).
- They avoid adding extra details that are not in the passage.

### Teacher Notes:

- Accept student headlines if they correctly summarize the passage's main idea.
- Encourage students to share and compare their headlines—different students may focus on different angles (problem vs. solution).
- Reinforce that good headlines are **concise** and **attention-grabbing** without being misleading.
