Name _____

Team Stat Clash Answer Key

1. Comets
2. Comets
3. Falcons
4. Comets
5. 4 points
6. 20 points
7. A
8. B

Teacher's Guide

- Quick implementation: Review mean, median, and range before students begin. Emphasize that a smaller range indicates less spread and greater consistency.
- Differentiation: For support, have students highlight the larger mean and median and the smaller range. For added challenge, ask students to support each comparison with two statistics.
- Engagement: Present the activity as a sports analyst challenge in which students must decide what the statistics actually reveal about each team.
- Extension: Have students write one additional conclusion supported by the statistics and one conclusion that cannot be determined from the data.
