Name _____

Evidence Verdict Answer Key

1. A
2. B
3. A
4. B
5. A
6. C
7. A
8. C

Teacher's Guide

- Quick implementation: Remind students to choose only conclusions directly supported by the information shown, not predictions, opinions, or causes that the data cannot prove.
- Differentiation: For support, have students underline the evidence supporting each choice. For added challenge, ask students to explain why one distractor overstates the evidence.
- Engagement: Present each item as an evidence test where students must separate a defensible conclusion from claims that go beyond the data.
- Extension: Have students choose one display and write one new supported conclusion and one plausible conclusion that is not supported.
