Teacher Notes / Guide

- **Skill Targeted:** Students practice spotting incorrect **irregular forms** and correcting them to reinforce memorization.
- **Teaching Tip:** Have students read the corrected paragraph aloud to notice how the flow improves with correct grammar.
- **Differentiation:** For struggling learners, provide a **word bank** of correct forms to choose from. For advanced learners, challenge them to **write their own error-filled paragraph** for classmates to edit.
- **Extension Activity:** Ask students to explain why each corrected form is irregular (e.g., *went is irregular because it doesn't use -ed*).
