Teacher Notes / Guide

- **Skill Targeted:** Students practice applying irregular verb forms in the context of a flowing narrative passage.
- **Common Struggle:** Learners often try to substitute regular “-ed” verbs (e.g., *comed*, *writed*). This activity reinforces proper memorization and real usage.
- **Extension Activity:** Ask students to continue the journal entry by writing three more sentences using different irregular verbs.
- **Differentiation Tip:** Provide the base forms of the verbs in parentheses for struggling learners (e.g., *eat*, *go*, *see*). For advanced learners, remove the word bank and have them recall the correct forms from memory.
