11. known
12. blew

### Teacher Notes / Guide:

- **Skill Targeted:** This activity practices **irregular verb forms** (past tense, past participle) and some irregular plural nouns in context.
- **Teaching Tip:** Before handing out the worksheet, review the difference between **regular and irregular verbs** and emphasize that irregulars do not follow the “-ed” rule.
- **Extension Activity:** Ask students to create two new fill-in-the-blank sentences of their own using irregular verbs, then swap with a partner to solve.
- **Differentiation:** For struggling learners, provide a word bank with possible irregular forms. For advanced learners, challenge them to explain why each form is correct in context.
