

Name _____

Italy's Natural Features Answer Key

1. Po River
2. Sicily
3. Apennines
4. Sardinia
5. Mt. Etna

Teacher's Guide

Purpose

- Introduce and reinforce major physical features of Italy.
- Build mid-level geography skills for grades 6 to 7.
- Strengthen recognition of bolded terms such as **Po River**, **Apennines**, and **Mt. Etna**.

Instructional Tips

- Review each feature as a class before starting the worksheet.
- Encourage students to highlight key words in each description that give clues.

Engagement Ideas

- Display images of Italy's rivers, mountains, islands, and volcanoes to spark student interest.
- Invite students to share which physical feature they would most like to explore and why.

Extension Activities

- Have students research the role of the Po River or Apennines in Italian culture or history.
- Encourage students to write a brief report on how volcanoes like Mt. Etna affect nearby towns.
