## Dream Job Design

**Directions:** Think about a career that inspires you. Write a short paragraph describing why this job is important, what the person does each day, and what tools they use. Then, draw or list the tools and items that represent this job to complete your "career collage."

**Writing Prompt:** Imagine you could step into the shoes of any worker for a day. Would you be a firefighter, a teacher, a doctor, a scientist, or something entirely unique? Describe:

- Why this career matters to the community.
- What makes the job interesting or challenging.
- The most important tools or equipment used every day.
