

Name _____

Graph Feature Match Answer Key

1. C
2. A
3. B
4. D
5. E
6. F
7. G
8. H
9. I
10. J

Teacher's Guide

- Quick implementation: Review the purpose of a line graph, then have students complete all 10 matches independently.
- Differentiation: Allow students to highlight each graph feature before matching it to the Answer Bank.
- Engagement: Have partners take turns pointing to a feature while the other student names it.
- Extension: Ask students to create a small line graph and label its title, axes, axis labels, scale, data points, and connecting line.
