

Name _____

Line Graph Check Answer Key

1. B
2. Scale
3. A
4. Increasing
5. Decreasing
6. B
7. 30
8. 35
9. C
10. A
11. Title
12. A

Teacher's Guide

- Quick implementation: Use the worksheet as a short independent review after students have practiced reading and interpreting line graphs.
- Differentiation: Review the terms axis, scale, data point, peak, and trend before students begin.
- Engagement: Have students compare answers with a partner and explain one answer using line-graph vocabulary.
- Extension: Ask students to create four data values that show an increase, a decrease, and a period of no change.
