The Library Adventure

On Saturday morning, Maya walked to the town library with her younger brother, Daniel. They wanted to find books about dinosaurs for a school project. The library was quiet, with sunlight streaming through tall windows. Ms. Lopez, the friendly librarian, helped them locate the science section. Maya picked out a book about T. rex, while Daniel chose one about Triceratops. After checking out their books, they sat at a nearby table to read. Around noon, their mom arrived to take them home. Maya and Daniel left excited to share what they had learned.
