Teacher's Guide

- **Skill focus:** Students use context clues and sound matching to select the correct **long vowel rhyming** word that completes a sentence.
- **Differentiation:**
 - Support: Cover one choice at a time and say the bold word with each option out loud (plate-gate, plate-hat).
 - Challenge: Students underline the long vowel spelling pattern in both rhyming words (example: a_e, igh, oa).
- **Engagement:** Have students do a quick "rhyme check" by whisper-reading the sentence twice, once with each option, then choosing the one that sounds right.
