### Teacher's Guide

- **Purpose:** This assessment checks recognition, identification, and production of **long vowel rhymes** across multiple formats.
- **Differentiation:**
  - Support: Read directions and items aloud. Allow students to say choices before responding.
  - Challenge: Ask students to label the rhyme family for items 7 and 8 (example: ake, oat).
- **Engagement:** Treat each section as a short "mission" and let students track progress with checkmarks.
- **Extension:** Students create one new question for each section using a different long vowel rhyme family.
