Name _____

Trait Tracker Challenge Answer Key

(Sample Predictions for Reference)

These are **example responses** to guide evaluation. Student answers should align with character traits and demonstrate logical reasoning.

Character 1 – Elijah

Sample Prediction:
Elijah will probably be frustrated that his group didn't wait. He might ask them to stop and restart with a safer, approved experiment. He'll want to make sure everything is organized and follows the rules.

Character 2 – Maribel

Sample Prediction:
Maribel might struggle to stick to the template at first and might suggest fun ideas outside the rules. She may get distracted by other creative ideas but will eventually try to add her own flair while still finishing the project on time.

Character 3 – Devon

Sample Prediction:
Devon won't say anything right away, but he'll notice what happened. Later, he might quietly talk to the teacher or his friend to make sure they get the credit they deserve, especially since he's loyal and thoughtful.
