

Anchor Chart Match

Directions: Below are definitions of text structures (left column) and examples of passages (right column). Match each definition with its correct example.

Examples

1. "Earthquakes shake the ground because of shifts in Earth's plates. As a result, buildings can collapse."
2. "First, chop the vegetables. Next, boil water. Then, add noodles. Finally, serve with sauce."
3. "Traffic in the city has become a big problem. One answer is adding more buses, and another solution is building bike lanes."
4. "The eagle has sharp talons, broad wings, and excellent eyesight. For example, it can spot prey from a mile away."
5. "Basketball and soccer are both team sports, but soccer is played with feet while basketball is played with hands."

Definitions

- A. Lists events or steps in the order they happened.
- B. Explains reasons something happened and the results that followed.
- C. States an issue and offers ways to fix it.
- D. Shows how two or more things are alike and different.
- E. Paints a detailed picture of a topic with characteristics and features.
