## Text to Diagram Matching

**Directions:** Read each passage, then match it with the correct diagram. Write the letter of the diagram that best matches each passage.

### Diagrams (described)

A. **Timeline** - 1903: Wright brothers' first flight → 1969: Moon landing → 2000: International Space Station inhabited

B. **Flowchart** - Problem: Too much trash → Solution 1: Recycle more → Solution 2: Compost food scraps → Solution 3: Reduce packaging

C. **Cause-Effect Web** - Cause: Heavy rainfall → Effect 1: Rivers overflow → Effect 2: Roads flood → Effect 3: Homes damaged

D. **Comparison Chart** - Dogs: loyal, need walks, bark | Cats: independent, use litter box, meow

E. **Word Web** - Topic: Tropical Rainforest → animals, plants, climate, layers, rivers

1. Because of days of heavy rain, rivers spilled over their banks. As a result, nearby roads were closed and several houses were damaged.

Diagram: \_\_\_\_\_

2. Tropical rainforests are rich ecosystems. They include many plants, animals, unique climates, and even rivers that flow through dense vegetation.

Diagram: \_\_\_\_\_

3. The Wright brothers flew in 1903, and decades later humans reached the moon in 1969. By 2000, astronauts were living on the International Space Station.

Diagram: \_\_\_\_\_

4. Plastic waste is piling up everywhere. One solution is recycling, another is composting food scraps, and a third is reducing packaging.

Diagram: \_\_\_\_\_

5. Dogs often need daily walks and are known for loyalty, while cats are independent, quieter, and use litter boxes. Both can be loving pets.
