## Adventure Camp Math Families

Each problem below involves an **addition/subtraction fact family**. Students should write **all related facts** for each situation (two addition and two subtraction equations).

### 1. The Canoe Crew - Fact Family: \_\_, \_\_, \_\_

There were 7 campers in one canoe and 5 in another.  
How many campers were on the lake altogether?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

### 2. Trail Snacks - Fact Family: \_\_, \_\_, \_\_

The campers packed 14 granola bars. They ate 6 on the hike.  
How many granola bars are left?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

### 3. The Tent Builders - Fact Family: \_\_, \_\_, \_\_

There are 9 small tents and 8 large tents at Camp Evergreen.  
How many tents are there in total?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

### 4. The Lost Hiking Sticks - Fact Family: \_\_, \_\_, \_\_

Riley had 12 hiking sticks. She gave 4 to her friends.  
How many does she have now?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

### 5. Campfire Songs - Fact Family: \_\_, \_\_, \_\_

During the sing-along, 11 campers started singing.  
Later, 9 more joined in. How many campers sang in total?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$
