Name _____

Middle Value Hunt Answer Key

1. 3, 5, 7, 9, 12. Median: 7
2. 9, 11, 13, 15, 16, 18, 20. Median: 15
3. 14, 17, 19, 21, 24. Median: 19
4. 21, 23, 25, 27, 29, 32, 35. Median: 27
5. 6, 8, 9, 11, 13, 14, 17. Median: 11
6. 27, 31, 35, 38, 42. Median: 35
7. 7, 10, 13, 16, 19, 22, 25, 28, 31. Median: 19
8. 32, 36, 38, 40, 44, 48, 50. Median: 40

Teacher's Guide

- Quick implementation: Review that the median is the middle number after the data are arranged from least to greatest. Have students complete each ordered list before identifying the median.
- Differentiation: For students needing support, let them cross out one number from each end of an ordered set until one middle value remains.
- Engagement: Have students compare answers with a partner and check whether they identified the same middle value.
- Extension: Ask students to add two values to selected data sets while keeping the original median unchanged.
