- **Grade 6:** Have students underline clue words that help them decide the correct time period.
- **Upper Grades:** Ask students to identify tone and emotion in each letter for deeper understanding.

### Engagement Ideas:

- Create a **timeline wall** showing where each war fits in history with photos or drawings.
- Pair students to read excerpts dramatically as if presenting real letters home.
- Play soft background music from each era while reading to set historical mood.

### Extension Ideas:

- Students write their own **imagined veteran letter** from one historical era, using sensory details and emotion.
- Research a real veteran from the chosen war and summarize their story in one paragraph.
- Discuss how communication methods (letters, emails, video calls) have changed how soldiers stay connected with home.
