

Name \_\_\_\_\_

## Saving Grammar, One Glitch at a Time

The classroom robot tried to write a story, but its grammar circuits went haywire! Each sentence below has one or more mistakes. Your job: fix them first using your own proofreading skills, then ask **Microsoft Copilot** to check your corrected version. Type or say to Copilot:

"Can you check this sentence for grammar and punctuation errors?"

Compare your version with Copilot's and note if it agreed or found something different.

Remember - you're the human editor, so use your judgment before accepting changes!

1. the robot fly to the moon last night

Your correction: \_\_\_\_\_ Copilot Check: \_\_\_\_\_
