

Name _____

What's It Missing?

Instructions: Read each story carefully. Fill in the missing **number(s)** or **operation symbol(s)** (____) to make the equation true.

1. Book Collection - Ella owns 245 books. Her friend gives her some more, and now she has 310 books.

Equation: $245 \text{ ___ } = 310$

2. Tickets Sold- A theater sold 1,248 tickets in total during 8 shows.

Equation: $1,248 \text{ ___ } 8 = \text{ ___ }$

3. Lemonade Cups - A lemonade stand sold 9 cups each hour for 5 hours.

Equation: $9 \text{ ___ } 5 = \text{ ___ }$

4. Planting Trees - There were 860 new trees planted equally across 10 parks.

Equation: $860 \text{ ___ } 10 = \text{ ___ }$

5. Online Orders - A company had 1,500 orders last month. This month, they received 375 more.

Equation: $1,500 \text{ ___ } 375 = \text{ ___ }$

6. Bike Ride - Carlos biked the same distance every day for 7 days. Altogether, he biked 189 miles.

Equation: $\text{ ___ } \times 7 = 189$

7. Fundraiser - A group raised \$2,400 in total by selling 300 tickets.

Equation: $2,400 \text{ ___ } 300 = \text{ ___ }$

8. Boxes of Donuts - Each box holds 12 donuts. If a bakery sold 144 donuts, how many boxes did they sell?

Equation: $144 \text{ ___ } 12 = \text{ ___ }$

9. School Supplies - The school ordered 750 pencils and used 326 of them.

Equation: $750 \text{ ___ } 326 = \text{ ___ }$

10. Construction Project - A factory produces 480 nails each hour. How many nails will it make in 24 hours?

Equation: $480 \text{ ___ } 24 = \text{ ___ }$
