AI Myths - Two Truths and a Lie Answer Key

Set 1

Myth: *AI has human-like emotions and can feel happiness.*

Why: AI cannot feel emotions; it only simulates patterns.

Set 2

Myth: *AI is alive and has its own thoughts.*

Why: AI is not alive; it is software that follows human instructions.

Set 3

Myth: *AI will definitely replace every human worker in the future.*

Why: AI changes jobs but also creates new ones, and it works best with humans.

Set 4

Myth: *AI secretly plans to take over the world.*

Why: AI has no plans or intentions; it's a tool used by humans.

Set 5

Myth: *AI is always completely fair and unbiased.*

Why: AI can reflect biases from its training data, so it isn't always neutral.
