Teacher's Guide

- Use this activity to strengthen map-reading skills for Grades 4 to 8.
- Encourage students to consult both political and physical maps for a richer understanding.
- Review the directions of the compass before beginning.

Differentiation Tips

- Offer vocabulary support for terms like **province**, **port**, and **coastline**.
- Allow students who need support to work in pairs.

Engagement Ideas

- Add a quick discussion about why port cities like Rotterdam are important.
- Ask students to predict challenges the Netherlands might face because of its location near the sea.

Extension Ideas

- Have students research another European country and create a similar map skills quiz.
- Invite learners to sketch their own simplified compass rose and label nearby regions.
- Encourage students to compare the geography of the Netherlands with a country that has mountains or deserts.
