## Dutch Truth Check Answer Key

- |   |   |
|---|---|
| 1. True   | 6. True   |
| 2. False. The Netherlands is mostly flat and does not have mountains. | 7. True   |
| 3. True   | 8. True   |
| 4. True   | 9. False. Dutch windmills were used for important jobs like pumping water and grinding grain. |
| 5. False. The Netherlands has a mild, cool climate.                   | 10. True  |

### Teacher's Guide

- Use this activity to help Grades 3 to 6 students review Dutch landforms, climate, and culture.
- Encourage students to read each statement closely and think about what they already know.

### Differentiation Tips

- Offer a short Dutch vocabulary list including words like **dike**, **lowlands**, and **port**.
- Allow students who need support to work with a partner to check understanding.

### Engagement Ideas

- Show photos of tulip fields, windmills, bicycles, and canals before the activity.
- Ask students which statement surprised them the most and why.

### Extension Ideas

- Have students write two additional true or false statements for a classmate to solve.
- Invite students to research one Dutch landmark and present a fact to the class.
