## Windmill Wonders Answer Key

1. It is known for its flat land and colorful tulip fields.
2. They build dikes to keep water out because the country sits close to sea level.
3. People travel by riding bicycles along smooth paths.
4. Examples include cheese, wooden shoes, or lively celebrations.
5. Answers will vary. Students should mention something based on the passage such as canals, tulips, windmills, or cultural traditions.

### Teacher's Guide

- Use this reading passage to build comprehension skills for Grades 3 to 5.
- Encourage students to read aloud to support fluency.
- Model how to restate questions in answers for completeness and clarity.

### Differentiation Tips

- Provide vocabulary support for words like **tradition**, **canals**, and **sea level**.
- Allow struggling readers to listen to the passage before reading it independently.
- Challenge advanced students to write an extra paragraph comparing the Netherlands to another European country they have studied.

### Engagement Ideas

- Show pictures of tulip fields, windmills, or canals before reading to activate prior knowledge.
- Invite students to plot the Netherlands on a world map.
- Let pairs discuss which detail from the passage they found the most interesting.

### Extension Ideas

- Assign a short research project on a Dutch city or custom.
- Have students create a postcard illustration showing a location or tradition mentioned in the passage.
