Teacher's Guide:

- Model one example together, emphasizing how **facial expressions** and **body posture** reveal emotions.
- Provide a **feelings word bank** with visual cues for students needing extra support.
- Encourage verbal learners to **explain their reasoning** for each emotion aloud to reinforce cause-and-effect understanding.
- Extend the activity by having students **create their own "emotion formula"** using real-life experiences or fictional situations to strengthen empathy and perspective-taking.
