## Oceania Checkup Answer Key

- |          |          |
|----------|----------|
| 1. True  | 5. True  |
| 2. True  | 6. False |
| 3. False | 7. True  |
| 4. True  | 8. True  |

### Teacher's Guide

- Read the statements aloud before students respond to support comprehension.
- Remind students to think about what they have learned about climate, culture, and geography in Oceania.
- Encourage students to correct the false statements in their own words.

### Differentiation Tips

- Offer simplified definitions for words like coral, climate, and traditional.
- Provide a mini word wall for students who need vocabulary support.
- Challenge advanced learners to create two new true or false statements for a partner.

### Engagement Ideas

- Show short video clips or photos of Oceania landscapes to build background knowledge.
- Ask students to vote on which statement surprised them the most and discuss why.

### Extension Activities

- Have students rewrite the false statements into correct facts about Oceania.
- Invite students to research one country in Oceania and share one cultural or climate fact with the class.
