Name _____

Account Error Files Answer Key

1. Incorrect balance. Correct balance: $775.00.
2. Wrong transaction amount. Charge should be $42.60.
3. Incorrect balance. Correct balance: $875.00.
4. Duplicate charge. Remove one $18.50 charge.
5. Missing transaction. Add the $3.00 ATM fee. Correct balance: $437.00.
6. Duplicate charge. Remove one $74.25 payment.

Teacher's Guide

- Quick implementation: Have students compare receipts, confirmations, transaction amounts, and calculated balances with the online records.
- Differentiation: Review the four possible error types before students begin: incorrect balance, duplicate charge, wrong amount, and missing transaction.
- Engagement: Assign students the role of banking investigators who must resolve all eight account errors.
- Extension: Have students create one incorrect banking record and exchange it with a partner to identify and correct the error.
